Typis RIC. COTES, Impensis OCTAVIANI  
PULLSYN, Bibliopolæ in Cæmeterio  
Sti. Pauli. 1650. n

979:11

## Viris Apollineis.

**I** O Ambarvalia! illi-  
batum inspicite leno-  
cinum! ut antrum  
racemis sparsit labrusca! bic  
inter ulmos corylis locamur  
mistas, ubi castaneæ hirsu-  
tæ, & suffimine Juniperus  
rorata. Floret ager pampineo  
A 4 gravidus

gravidus autumno. Numen  
ne quid ultra ageret homi-  
nem, κινέτης τοπαδέστης ταῖς αὐτοῖς,  
dederat quas diximus mol-  
les, cibisque gratas, pinxerat  
remedia in floribus, visuque  
ipso animos invitaverat, eti-  
am delitiis auxilia permi-  
scens. Inde excogitavit ali-  
quas aspectu bispidas, tactu  
truces, ut tantū non vocem ip-  
suis fingentis illas, rationem-  
que reddentis exaudire vi-  
deamur, ne se depascat avida  
quadrupes, ne procaces manus  
rapi-

Pl. I. 22.  
c. 6.

rariant, ne neglecta vesti-  
gia obterant, ne insidens ales  
infringat; his muniendo a-  
culeis, telisque armando, re-  
mediis ut tuta ac salva sint:  
ita hoc quoque quod in iis o-  
dimus hominum causâ exco-  
gitatum est.

*Arbustum ne gry brumales  
veretur compedes sacratori  
Phœbi consitum dextera, ex  
infracta ubertim germinat  
gleba; quos digeris palmites,  
genio defraudati labascunt  
mangonio. Non comptiores  
gru-*

grumuli tapeti, tonfile ve bux-  
etum, quadras neque solicita-  
mus hortensis variegatis su-  
perbientes aduenis; spontane-  
as Pomona coloſtro fovet  
proles, numquid conductitia  
ſuaviora ubera? Medorum  
ſylvæ! Bactra! totaque arenis  
thuriferis Panchaia auræ  
bujus cedunt blanditiis!

Vitiantur gummi Arabi-  
cum, Camphora, Styrax, Opi-  
um, Agaricum, Scammoni-  
um, cui jam notum Amomum  
verum? Orobalsamum? aut  
uni-

unicornu decantatum Aλεξανδρεια?  
itinere multum de prosapia  
deponere compries. Sua do-  
mi reperiuntur morbis inqui-  
linis Pharmaca. Singulas Ju-  
piter sanabiles cudit plagas,  
nec advectas rubro de littore  
merces voluit expectandas, ut  
neque ante vulgatas Indias  
minus propitius fuerit.

Absterget bæc palæstra nau-  
seam, babent sua dulcia glau-  
ca fronde canentia salicta, re-  
soluntis spiritibus Napææ  
suggerunt cadurcum, Ipsa ter-  
ra

ra vermiculata stibadia. ripis  
labuntur undæ, fontesque ma-  
nante lympha strepitum edunt  
in uitantem soporem, post hæc  
Alaudæ requieta fuscitant  
vernantes organa, tota vita  
bylæa harmonia.
